Cat Survival (Title to be changed)

Story – UPDATED

A platformer game where the main character (you), jumps up a very tall building. There you will meet many obstacles along the way.

The game will be a vertical oriented android game. It is a 2d platformer game in a 3d environment. The main character will jump to one platform to another, all surrounded around a very tall building. There will be enemies and you must pass everything as you go on. Rather than just one side of the building, you can rotate the building, making it to be 4 sides.

Objective

Try to collect as much coins as you can and climb the building as high as you can!
